THIS WAS GIVEN

Approved For Release 2002/06/13 : CIA-RDP81B00878R000300040040-6

25X1A

FROM:

1. Request your proposal be submitted to cover the following:

ITEM

SYSTEM I

1. Twenty (20) sets of System I (without antennas)
2. Twenty (20) sets each of "X" and "S" antennas.
3. Spare parts, special tools, and test equipment which you would recommend to support the 20 sets based on a concept that all 20 were located at one base.
4. Fifty (50) copies and 1 reproducible each of necessary handbooks to operate and maintain System I and the test equipment at the "field" level.
5. Five (5) sets and 1 reproducible of drawings.
6. Recommend a quantity of replaceable spools, and if tape is not standard, recommend quantities of tape.

SYSTEM III

1. Proposal should be on same basis as outlined above except for Item 2.

Read Out for Systems I and III

1. Three (3) complete sets of read out equipment.
2. Spare parts, special tools, and test equipment which you would recommend to support the 3 sets based upon a concept that each set was located at a different base.
4. Ten (10) copies and 1 reproducible each of necessary handbooks to operate and maintain the Read Out equipment at the "field" level.
5. Three (3) sets and 1 reproducible each of Drawings.
6. Recommend quantities of duplicating tape, if necessary.

MISCELLANEOUS

1. Appointing of approximately 25 people for a period of 10-12 weeks at your

ILLEGIB

facility on Systems I and III and their related test equipment.

2. Training of approximately \_\_\_\_\_ people in the use of Systems I and III Read Out equipment and its related test equipment.
3. Two (2) Tech Reps quoted on a man-month basis. Expect to use these people for approximately 12 months, either ZI or overseas. A separate contract will be written to cover this service.
4. It is expected that Depot level maintenance and overhaul will be performed by you at your facility. It will be necessary for you to have a quantity of replacement spare parts available at your facility for this repair. Request you recommend quantities of parts which should be bought and left at your plant. It is anticipated that a separate contract on a time and material basis will be written to cover the labor involved.

ADDITIONAL INFORMATION

1. Request the list of spares for Systems I and III be broken down into two columns. (1) Those recommended for a 30-day flyaway kit. (2) Those recommended for 360-day back-up support.
2. The list of spares and special tools, and test equipment for all equipments should indicate applicable part or drawing numbers.
3. If certain common tools are required, i.e., screw driver, pliers, drills, etc., and it is your opinion that they are available in normal Air Force supply, request a list be furnished setting forth this type of tool.
